

FINNCOLD FROZEN STORAGE FV-40000

Product number **1104040000**

Technical information

Size	13400 x 6900 x 3500
Capacity	2 x 36 Euro pallets (2 x 20 000 kg) / Process
Area of activity	-20 °C, FiLo
Frame	Self-supported, specially designed welded metal frame with 8 pc supporting legs.
Weight	Total weight appr. 14 000 kg.
Connection data	- Electrical connection: 400 V / 36 A. - Drain connection, for condensation water.
Cooling	Hermetic refrigeration compressor together with condenser and evaporator, refrigerant R449, cooling capacity of 13 kW (-35 °C/+32 °C). A cooling evaporator

Air circulation

coil electric defrost.

Control

with propeller fans.

Thermostat-controlled freezing process. Operating switches built into the loading door jamb.
