

FINNCOLD TUNNEL FREEZER FF-2500

Product number **1104002500**

Technical information

| | |
|------------------|---|
| Size | 5600 x 2900 x 3500 |
| Capacity | 6 Euro pallets (2 500 kg) / Process |
| Area of activity | +5 °C ...-20 °C, freezing on pallets / gratings, block size 600 x 400 x 150 mm |
| Freezing time | varies by product and by packaging. Indicative times are: +5 °C...- 20 °C 18 - 22 h |
| Frame | Self-supported, specially designed welded metal frame with 6 pc supporting legs. |
| Weight | Total weight appr. 4500 kg |
| Connection data | - Electrical connection: 400 V / 100A. - Drain connection, for condensation water. |

Finncold - FINNCOLD TUNNEL FREEZER FF-2500

| | |
|----------------------------------|---|
| Cooling | Hermetic refrigeration compressor together with condenser and evaporator, refrigerant R449, cooling capacity of 23 kW (-35 °C /+32 °C). A cooling evaporator coil electric defrost. |
| Air circulation | Circulation air with propeller fans. |
| Intermediate level / air control | Solid intermediate level |
| Control | Thermostat controlled freezing process. Operating switches built into the loading door jamb. |
